

I am a citizen of
the united States
and there fore I
consider myself one
of the
"shareholders" of
public property. As
a part owner of the
airwaves, I employ
the FCC to oversee
this public domain.
I entrust that this
domain will be
utilized to better
the country as a
whole.

It has come to my
attention that
Sinclair
Broadcasting intends
to utilize the
airwaves to mandate
that it's stations
broadcast an
anti-Karry
documentary prior to
the presidential
election. This is a
clear misuse of the
airwaves.

The owner's of
Sinclair
Broadcasting have
the same rights of
free speech as any
other citizen. No
more and no less.

I expect the FCC to
prevent Sinclair
from having more
free speech than
anyone else.

Thank You.
